<b>Division/Department:</b>	Environmental Services/Capital Programs

### Proposed Action

That the Metropolitan Council adopt the Facility Plan for the Interceptor 8253-327 Forcemain Improvements Phase 2, ES Project No. 802806, per the attached Resolution No. 2026-2.

### Background

The Facility Plan recommends the following project to improve system reliability, minimize spill potential, and maintain public health, safety, and welfare. The proposed project will construct a new, fully redundant, 30-inch forcemain, rehabilitate the existing 30-inch interceptor 8253-327, and decommission the existing 24-inch pipe, within the communities of Shorewood, Victoria, and Chanhassen.

### Rationale

Public Facilities Authority (PFA) loan funding eligibility requires formal adoption of the Facility Plan by resolution (attached) following a public hearing on the draft Facility Plan.

### Thrive Lens Analysis

On Feb. 12, 2025, the Council adopted Imagine 2050, which builds on policy direction in Thrive MSP 2040. Under the Thrive lens, this action supports stewardship by ensuring that public financial resources will be invested efficiently and effectively to maintain and restore wastewater infrastructure, which protects the region's natural resources.

### Funding

Project 802806 is included in the 8028 family of projects in the 2026 ES Authorized Capital Program.

### Small Business Inclusion

There are no direct impacts to small businesses with the proposed action.
