

Business Item 2026-27

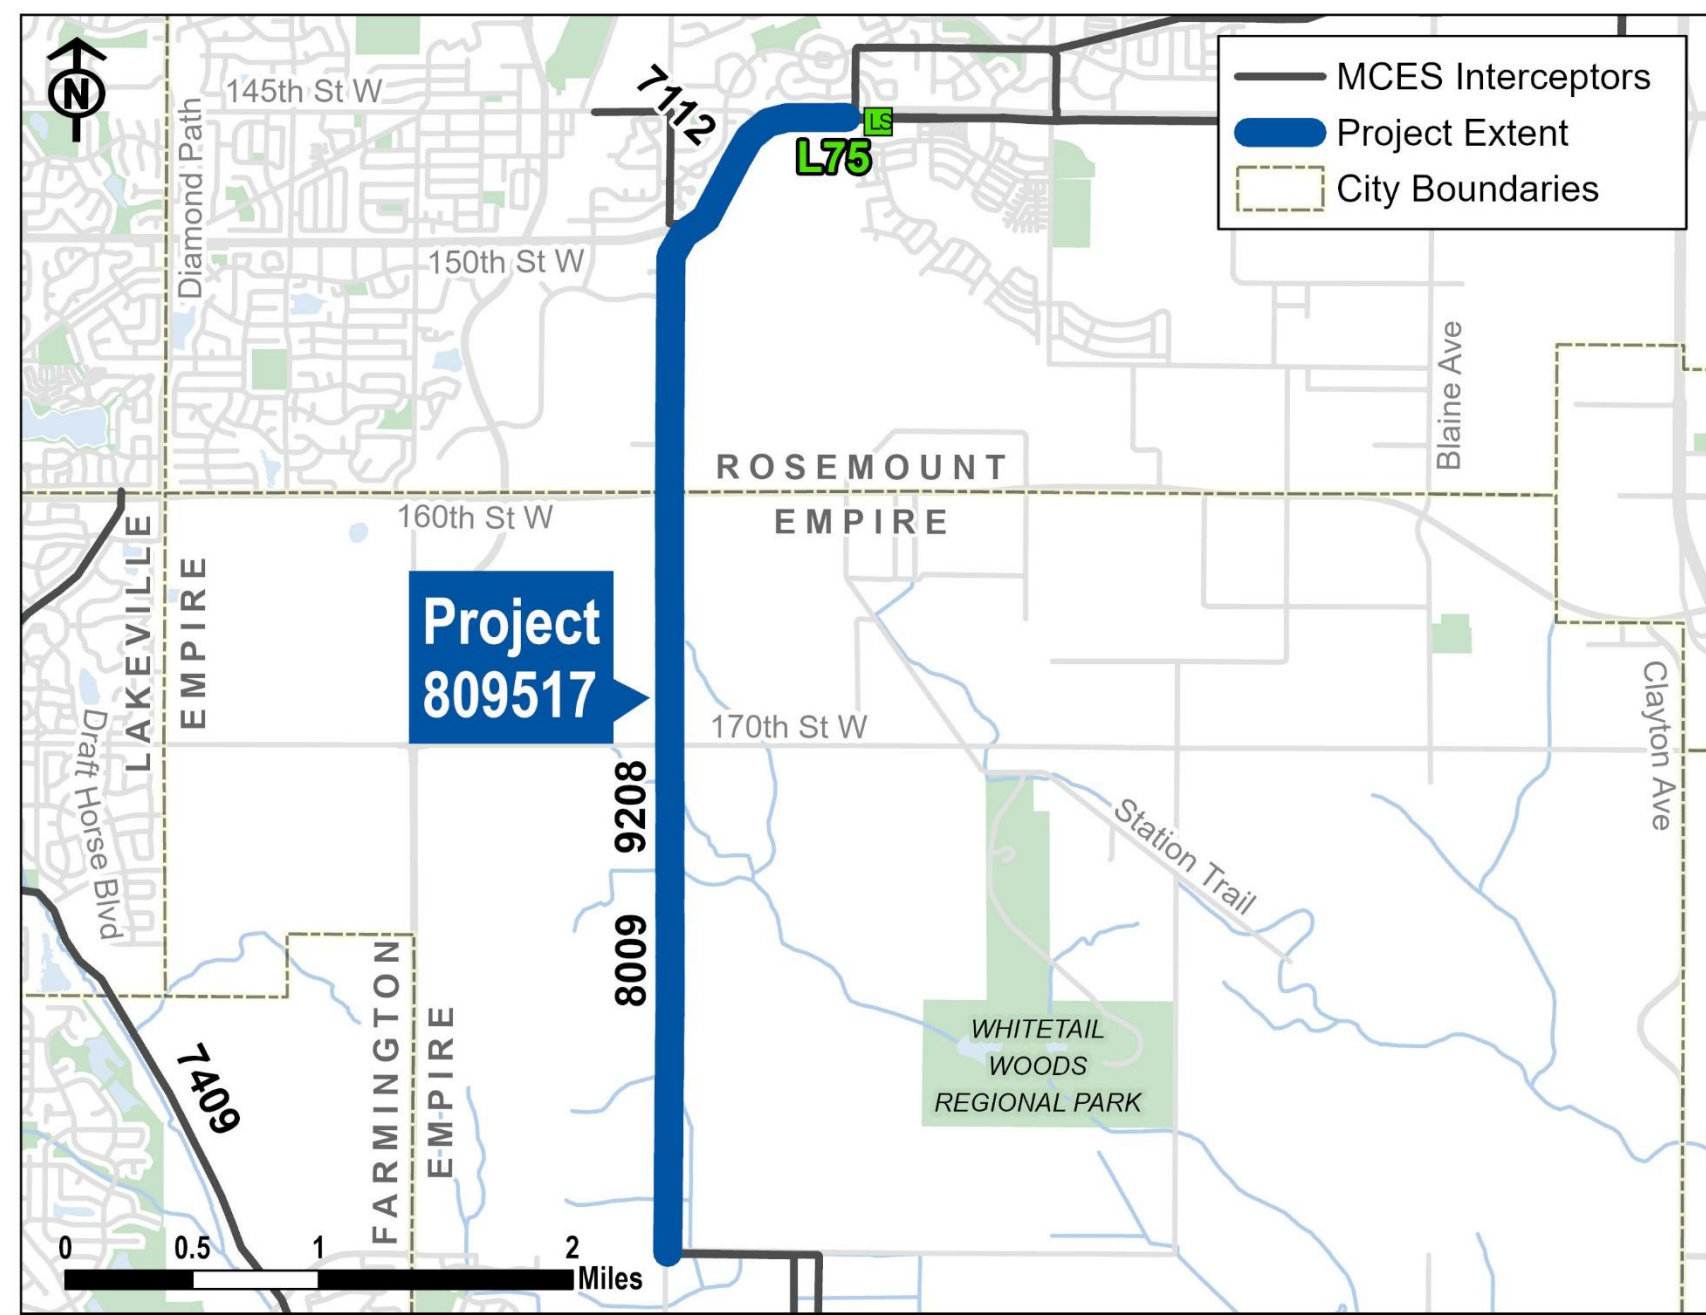

Interceptors 9208 and 9701 Maintenance Hole Improvements
Real Estate Property Acquisition and Condemnation

Environment Committee: January 27, 2026

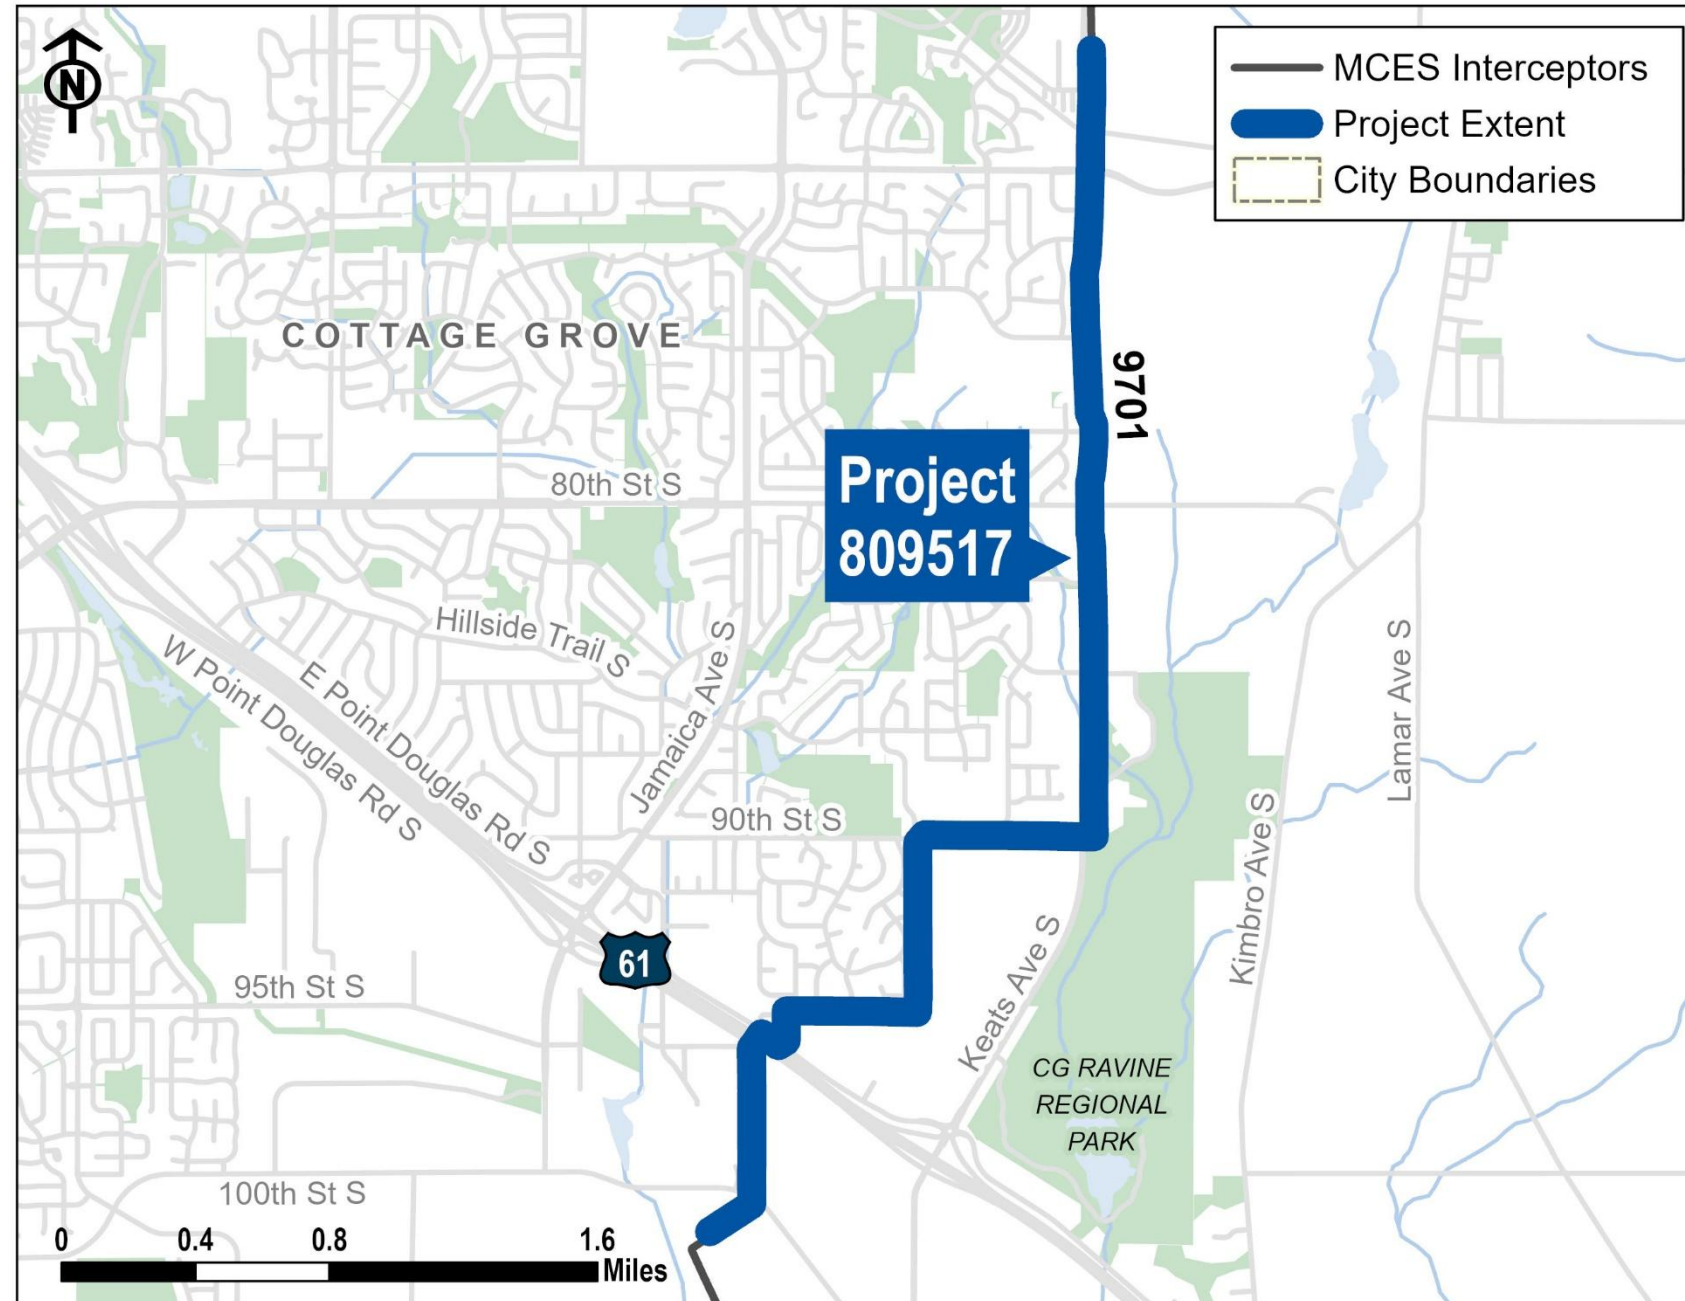

Jeff Schwarz

Project Area Site 1

Project Area Site 2

Project Scope

Interceptors 9206 and 9701 Maintenance Hole Improvements

- Excavate and expose 103 buried maintenance holes.
- Clean and provide access for maintenance hole inspections.
- Repair maintenance holes as needed.
- Furnish and install new risers, rings, gasket material, frames, and covers to bring maintenance holes to grade.
- Install bollards and flagging to protect maintenance holes.
- Restore disturbed surfaces.

Proposed Action

Interceptors 9206 and 9701 Maintenance Hole Improvements

That the Metropolitan Council adopt resolution 2026-3 authorizing the acquisition and condemnation of real estate property for Interceptor 9206 and 9701 Maintenance Hole Improvements, ES Project No. 809517.
