*Regional park search areas and regional trail search corridors are meant to denote general areas and do not specify exact areas or alignments at this scale. Refer to the Met Council website for current mapping. Future long-range planning work by regional park implementing agencies will determine specific boundaries.

This map shows regional parks and trails within the Implementing Agency's boundary. Some parks and trails managed by the Agency extend into adjacent jurisdictions; those units are labeled with the responsible agency.

This map uses data from the 2026 Regional Parks and Trails Dataset
